INTRODUCTION.

N the second and fourth volumes of this Society's publications will be found the Indices to the Wills and Inventories now preserved in the Probate Court, Chester, between the years 1545

and 1620, and 1621 and 1650 respectively. Between the vears 1650 and 1659 no wills were proved at Chester, nor after 1653 in any of the various Bishops' Courts throughout the kingdom, for, as has been explained in the Introduction to volume IV., after the year 1653 all wills had to be proved. and all letters of administration taken out, in the Prerogative Court of Canterbury, at London. Accordingly, in two Appendices to that volume, there will be found the list of the Lancashire and Cheshire wills proved, and letters of administration taken out, in the Prerogative Court of Canterbury between the years 1650 to 1660. With the restoration of the monarchical form of government and the re-establishment of bishops, wills were once more proved in the local Ecclesiastical Courts, and this volume contains the list of those wills, now remaining at Chester, which were proved there, between the years 1660 and 1680 inclusive.

As already very fully explained in the Introduction to volume II., the old diocese of Chester embraced the whole of the two counties of Chester and Lancaster, with certain portions of the counties of York, Cumberland, and Westmoreland. Wills relating to the North of Lancashire, that is to that portion of that county lying to the north of the river Ribble, which flows through Preston, together with those from Richmondshire in Yorkshire, and the portions of Cumberland and Westmoreland belonging to the great diocese of Chester, were proved at Richmond, in Yorkshire, that place being far more accessible to the inhabitants

of that district than Chester. These Richmond wills, down to 1748, were a few years since removed to Somerset House, London, and in volumes X. and XIII. of the publications of this Society, there will be found the lists of the Lancashire wills proved at Richmond between the years 1457 to 1680 and 1681 to 1748 respectively. From the year 1748 to 1858 the Lancashire wills proved at Richmond are now preserved at Lancaster, and can be there consulted.

The list of names contained in this volume has been transcribed, as far as the period 1660 to 1669 goes, from the index compiled, subsequent to the year 1847, by the late Mr. Charles Foden, the late record keeper, whilst between the years 1670 and 1680 the old (contemporary) index, which is still in use, has been copied. Mr. Foden made his index direct from the wills themselves, but there is an older (contemporary) index for that period, 1660-1669, which I have examined. This index contains more names than Mr. Foden's; but, on making a careful comparison between the two, I found in nearly every case, where a name appeared in the old, which did not appear in the new index, that it related to a grant of letters of administration or of tuition, and did not indicate a now missing will. As this volume is a list of all the wills and administrations now to be found at Chester, it did not seem worth while to be at the expense of transcribing the old index for the purpose of noting what letters of administration, etc., are missing. Most, if not all, of these grants of letters of administration will, however, be found in "the Act Books" (where these are preserved) for the respective years; for, as already explained in the Introduction to volume II., these "Act Books" contain a record of the wills proved, and the letters of administration which were granted, throughout the diocese, and they are most useful in giving evidence of the date of death, where the will or grant of administration is now lost.*

^{*} In May, 1886, in the course of my evidence given in the Chancery Court of the County Palatine of Lancaster, held at Liverpool, in the case Barton [and Freckleton] v. The Duchy of Lancaster, I was enabled to prove from an entry in one of these old Act Books that a transcript of the Pen-

There is a tradition in the Probate Court that many years ago, whilst the wills were in the Bishop's Registry. some of them were packed away in bundles very near to the roof of the building, and that in course of time, as the roof got old, the wet made its way in and did much damage. The result is that a great many wills belonging to the year 1670 have either perished or have been seriously damaged. The whole of the wills belonging to persons, whose names begin with A, B, C, D, E, and F, have perished entirely, whilst those for the other letters of the alphabet for that year, and for some other years between 1670 and 1680, are much damaged. The names of the testators whose wills were thus destroyed still remain in the index, and will be found in the following pages, but I have affixed an asterisk (*) to each of them to show that the will cannot now be produced.

In the Introduction to volume II., the fact that a number of wills have from time to time been transcribed into what are termed the Enrollment Books, now preserved in the Bishop's Registry, Chester, has been commented upon, and the lists of those belonging to the respective periods, to which volumes II. and IV. relate, have been printed in them. The following is the list referring to the period embraced by the present volume. Those that are *not* now to be found in the Probate Court are marked with an asterisk.

LIST OF THE WILLS TRANSCRIBED IN VOLUME III. OF THE ENROLLMENT BOOKS IN THE BISHOP'S REGISTRY, CHESTER, RELATING TO THE YEARS 1660 TO 1680.

wortham Registers, preserved in the Bishop's Registry, Chester, had been tampered with, and that the date, 1640, had been altered to 1650, at the same time that certain additional entries had been written on it, in a hand imitating the old handwriting. This clear proof of a very ingenious and clever forgery shows the great value which attaches to these old Act Books, especially in such cases referred to in the text, where the will or grant of administration is now missing (see A Lancashire Pedigree Case, 1887).

Attention has already been called to the fact that certain wills, etc., which were examined by the Revs. J. and G. J. Piccope, whilst they were preserved at the Bishop's Registry, could not be found after the wills had been transferred to the Probate Court (see Introduction to the Index to the Wills at Chester, 1545 to 1620). These two gentlemen made abstracts of the various documents, which they examined, and a list is given in the volume above referred to, of those wills, which are not now to be found in the Probate Court and of which abstracts appear in their MSS., now preserved in the Chetham Library, Manchester. This list filled nearly four pages, and referred to many wills of much interest and importance. It may be of service here

to note that since that list appeared I have printed all these abstracts in a volume issued by the Chetham Society in 1884, being vol. iii, of the New Series, and entitled "Lancashire and Cheshire Wills and Inventories at Chester, with an Appendix of Abstracts of Wills, now lost or destroyed: transcribed by the late Rev. G. J. Piccope, M.A., edited by I. P. Earwaker, M.A., F.S.A." By this means all chance of these abstracts becoming lost or mislaid, like the wills themselves, has been avoided. It may also be noted that among Canon Raines' voluminous MSS., now preserved in the Chetham Library, Manchester, there are abstracts of many wills, which are not now to be found in the Probate Some of these he seems to have examined at Chester, when the wills were preserved in the Bishop's Registry, but others he no doubt met with amongst the various collections of family deeds and papers, which he examined, from time to time, and of which he made abstracts. It appears to have been by no means uncommon for wills to be acted upon, by the members of the testator's family, without their ever being proved. This will help to account for so many wills being found amongst private family papers, which do not occur in the local Probate Courts. In the index to the Raines MSS, now being made for this Society, under my superintendence, I hope to indicate all the wills, of which abstracts occur in his MSS.. the originals of which cannot now be found at Chester.

I am also very glad to be able to announce that quite lately, in sorting a large pile of miscellaneous documents, which had accumulated on the floor of one of the upper rooms in the Bishop's Registry, at Chester, a number of wills, inventories, and executors' accounts have been found. These, which have been put on one side for examination, fill a small box, and I hope to be enabled to examine and catalogue them, before they are transferred to the Probate Court. I am also in hopes that more of these most valuable documents may be found, when the large collections of old papers of all kinds, which have accumulated in the Bishop's Registry during the past three centuries, are sorted and arranged. The Bishop's secretaries, Messrs. Gamon and

Farmer, and their clerk, Mr. W. H. Price, who has charge of the old Registry, take much interest in this work of arrangement, and devote as much of their time to it as they can spare.

It now only remains for me once more to express the indebtedness of the members of this Society to Sir James Hannen, President of the Probate Division of Her Majesty's High Court of Justice, for his permission to print this and the other indices. I am also much indebted to G. Middleton, Esq., the District Registrar of the Probate Court at Chester, to C. Turner, Esq., the Deputy-Registrar, and Mr. James Smith, the Record Keeper there, for the facilities they have afforded to the person employed by this Society to make the transcripts, and in many other ways. It will interest the members of the Society to know that all the indices of wills, down to 1760 inclusive, have now been transcribed, and that they will be printed in volumes containing the names for 20 years, from time to time as circumstances permit.

It has been arranged by the Council that the list of wills, proved between 1681 and 1700, shall be printed in vol. XVIII. to be issued in the course of next year. I may perhaps be allowed to add, in conclusion, that at any time I shall be very pleased to answer any enquiries, concerning the wills and other records preserved at Chester, which any readers of this volume, or others, may make.

CORRIGENDA.

In addition to the few Addenda et Corrigenda printed on p. 380, it is requested that the following corrections may be made:—

ma	ue:—	
PAGE 34	Booth, Thomas, of Beacom Admon with Inv read <i>Bootle</i> .	1675
34	Booth, William, of Hoolmore Green Admon with Inv read <i>Bootle</i> .	1674
34	Bootle, George, of Manchester, grocer read <i>Booth</i> .	1667
42	Brooke, Richard, of Boughton	1667

The following points are commended to the attention of those using this book:—

- I. In some cases inventories appear to have become detached from the original wills, and have so been placed in different bundles and indexed under different years. This list, however, being an alphabetical one, such cases will be speedily detected, and it will be easy to replace the inventories in their proper places.
- 2. Where the word "Inv" occurs, it signifies that the deceased had most probably died intestate, and that an inventory of his goods had been filed and administration granted to his representatives. Where the word "Admon" occurs, it shows that an administration bond had been filed as well. In all other cases the wills themselves are extant, either with or without the accompanying inventories.
- 3. It is to be noted that in the Probate Court of Chester the original wills up to 1838 (and not official transcripts, as in many other Probate Courts) are those shown to enquirers.
- 4. Owing to the original spelling of the wills having been followed in the MS. Index, and allowing for possible mis-readings, enquirers are particularly desired to search for any name bearing a resemblance to that they are looking for, as for example Leigh for Legh or Lee, Newall for Nowall, Houghton for Haughton, &c., &c. As far as possible this has been indicated by cross references in this list. Words now spelt with an i then frequently had y.
- 5. This list contains all the wills, inventories, and administration bonds now known to be preserved at the Probate Court, Chester, between the years 1660 and 1680 inclusive. It is in continuation of Volumes 2 and 4 (Indices to the Wills and Inventories now preserved at Chester, 1545 to 1620, and 1621 to 1650), and will be followed by others, bringing the lists down to 1760, or possibly 1780.
- 6. In an Appendix will be found the list of all the wills, proved between 1660 and 1680, in which the amount of personalty was less than £40. These wills, which were proved in the Rural Deans' Courts, are generally called "INFRA" wills, and there are none known of earlier date than 1660. They are kept distinct from the other wills, and when enquired for it is necessary to clearly describe them as being "Infra" and not ordinary wills.
- 7. This volume alone, including the Appendix, is an Index to more than eighteen thousand documents.

^{* &}quot;The original will of Mr. Harpur was decreed to be delivered into the hands of Dulcibella, his widow, for fulfilling a decree of Exchequer made in 1669. A copy attested by Mr. Wilson remained in the office, which, being produced in 1698 at a Commission out of Chancery on the behalf of Mr. Nathan Jolliff, in which Mr. Prescot was a witness, the same was not restored, but still remains in the hands of Jolliff's widow."
